PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Petropavlovsk Army Barracks West is 5 kilometers (km) north of the center of Petropavlovsk-Kamchatskiy (Figure 1). Although listed in the Bombing Encyclopedia as an army barracks, this installation appears to provide storage and logistics support for the ground force installation in Petropavlovsk.

The installation covers approximately 200 acres and contains 4 housing units, 28 storage buildings, 3 probable bunkers, 1 vehicle shed, and 45 support buildings. It also contains

3 open storage areas and 2 motor parks (Figures 2 and 3).

The area was covered by [REDACTED] KEYHOLE missions of interpretable quality between [REDACTED]. Comparative analysis indicates that the installation expanded from a total of 19 buildings in [REDACTED] to 70 buildings by [REDACTED]. The overall level of activity has remained light except for the [REDACTED] periods when it was medium to heavy.
